### We hear that a Noble Lord in

The City of London advertised for a Taylor that would  
undertake to make a Suit of Cloaths out of 2½ Yards  
of Broad Cloth, for which a handsome Premium was  
offered: the advertisement paid's unnoticed for a con-  
siderable Time, and at Length a Journeyman Taylor  
presented himself to his Lordship, with a Recommendation  
of being an honest, faithful Workman, and de-  
sired to undertake the Work, upon which his Lordship  
presented the Cloth; and in a few Days the Taylor  
presented the Coat, completely finished, which fitted his  
Lordship's extremely well: he then cut the Waistcoat out  
of the Coat, and presented that, which also fitted, and  
then cut the Breeches out of the Waistcoat and presented  
them, which likewise fitted: his Lordship then asked  
for his Coat and Waistcoat; upon which the Taylor de-  
livered the Fragments of the Coat and Waistcoat, and  
said that he had made the Suit according to Agreement, and  
presented his Bill for Payment, which his Lordship dis-  
charged without the least Hesitation, to the small  
Satisfaction of the Taylor, and Discretion of a Number  
of Gentlemen who were present on this Occasion.  
'Tis to be hoped there is no modern Taylor among us,  
however thorowly experienced in the Business, and what-  
ever left Cloth and Trimmings, be less than any other  
Taylor, will meet with the best Management  
from the Nobility and Gentry of the Town, or Country  
adjacent, if he should act upon the same Principles  
with the Journeyman above mentioned.

Philadelphia, July 28.  
As what follows, I have with a truly  
charitable and benevolent Intention, we cheerfully  
insert it, not doubting but it will answer the Ex-  
pectations of its worthy Author.

It appears, by many Accounts, that the  
Distresses of our floating Inhabitants, who are  
driven from their Dwellings thro' Fear of the Savage  
Indians are exceeding great. Many from Juniata, and  
other Places near the *Sasquehanna*, fled from Danger,  
and brought their Families, and little else, down the  
River in Canoes. Some escaped by Land in almost as  
great Distress, having nothing to support them but a  
few Cattle, for which they can hardly find Range to  
the inner Parts of the Country, where they fled for  
Shelter. Their Neighbours, among whom they re-  
side, must suffer greatly, and be oppressed, while they  
strive to accommodate such Numbers as crowd in a-  
mong them. They cannot fee any perish for Want  
while they are able to relieve them. Above a Thou-  
sand Families are driven from their Houses and Ha-  
bitations, and all the Comforts and Conveniences of  
Life. Of these a great Number are poor, so as to have  
neither Money nor Credit to purchase the Necessaries  
of Life. Many Farmers on our Frontiers, and in  
other Places, live comfortably, for many Months  
in the Year, can command no Money, and as soon as  
such Persons are driven from their Plantations, they are  
poor and distressed beyond Expression. Many of these  
very Families that now suffer, were a few Years ago  
expedit to the same Losses and Distresses. They lost  
all their worldly Substance, and some their dearest  
Friends and Relatives. They were obliged to seek a  
Shelter among us, and endured Poverty and Hardships  
for some Years. They gladly returned to their for-  
saken Habitations as soon as there was any Prospect  
of Safety; and many of them, with the Help of  
Friends, or even burdened with Debts, were scarce able  
to begin the World anew; how hard then and dis-  
couraging is their Condition, to be again reduced to  
extremest Poverty, and all the Dangers of an Indian  
War? They are Men, & we should, for this Reason, pity  
their Distresses; they are our Christian Brethren; they  
are our Fellow Subjects; their Distresses are our  
Distresses; for they are a Part of this flourishing Pro-  
vince; all these tender Connections call for our  
Sympathy, and Bowels of Compassion. It is our In-  
terest as well as our Duty to encourage them to stay  
in Cumberland County; or even to return to their for-  
saken Dwellings, if it can be done in Safety. For if  
this County be deserted, where shall we make a Stand?  
Shall Lancaster or this City be the Frontiers of this  
Province? Our Governor and Assembly have granted  
Men for their Protection, and it is to be hoped the  
Charity of good Christians will not be wanting to en-  
able the most needy and distressed to find the Ne-  
cessaries of Life, until we see how these Calamities  
will end. Our excellent King, and the English Gov-  
ernment, will never oppress nor do what is unjust,  
even to the most barbarous and savage Nations, and if  
reasonable Terms will not satisfy them, we are able  
to correct their Insolence, and bring them to Reason;  
so that we have Cause to trust in God that this Storm  
will soon blow over."

"We are informed that Mr. ADAM HOOPE, in  
Compassion to these Poor Sufferers, ordered Fifty  
Pounds to be put into proper Hands to be distributed  
among them: And the Society for the Relief of poor  
and distressed Presbyterian Ministers, and their Widows  
and Children, on the 13th Instant, sent One Hundred  
and Fifty Pounds to some Ministers and Gentlemen in  
and near Carlisle, and ordered it to be distributed with-  
out Partiality or any Regard to religious Distinctions,  
among such of those Sufferers as were unable to sup-  
port themselves and their Families; but as these Sum-  
s are not sufficient, it is hoped, from the well known  
Charity of this Province, that others will have Com-  
passion, and contrive Ways to relieve these Distresses."

### New-York, August 4.

Since our Last Advice has been received from the  
Detroit, of the 8th of July; and the following  
may be depended on as authentic.

THE good Conduct of Major Gladwin, who com-  
mands at the Detroit, lauded by the spirited  
Behaviour of his whole Garrison, having baffled all the  
Schemes of the Indians, even before any Reinforce-

ments arrived, the Savages seemed to sicken of their  
Attacks, and some had threatened to leave the other  
and go home, when the letters came away; but those  
Letters discover such a continued Scene of Butcheries  
committed by the inhuman Villains as (ligger Credi-  
bility, and are shocking to human Nature.

"It appears that the Savages massacred all the Men of  
Lieut. Cuyler's Party, who fell in their Hands, ex-  
cept their Way to the Detroit; excepting three Men, who  
had Resolution enough, when they came within Sight  
of Detroit, to attack the Indians who were guarding  
them in the Boat; threw the Boats overboard, and  
got safe into the Fort.

The Posts at *Sandyly*, *Miami*, *Michilimackinac*,  
*Oulatanon* and *St. Joseph*, are all cut off by *Treacher*  
chiefly owing to the Savages having taken the Opportu-  
nity of securing the Commanding Officers, when  
treating with them as Friends. The whole Garrison  
of *Sandyly* (excepting *Edwin Penit*, the Command-  
ing Officer, who made his Escape, and got safe into  
the Detroit) with all the Traders who were there, fell  
by the Hands of the Savages: The same Party at-  
tended *Edwin Holm*, at the *Miami*, who was betrayed  
by a Squaw, that begged him to go 200 Yards, to  
bleed one who was dying, when he was shot by the  
Indians, who way-laid him. The commanding Officer  
at *Michilimackinac* is Prisoner; but too many of his  
Garrison have suffered: All the Goods at those Places  
have fallen into the Hands of the Indians. Several  
of the Traders massacred; *Ensign Sutherland*, was  
mandated at *St. Joseph*, got safe into the Detroit, but  
the Villains, who came as Friends, betrayed the  
Man of the Garrison, excepting *Thre*, and *James*,  
the Fort. *Lieut. Jenkin*, who commanded at *Oulatanon*,  
is carried to the *Illinois*; and 'tis feared his  
Garrison have met with no better Treatment than the  
others. — *Edwin Christie*, who commanded at *Progre*  
*Isle*, and who was said to be killed, was carried by the  
Savages, with Part of his Garrison, to the Detroit.

"On the 30th June, the Schooner arrived from  
*Niagara*, with a Reinforcement of Men, and a Fresh  
Supply of Ammunition and Provisions. And on the  
4th July, Major *Gladwin* sent out a Party, who at-  
tacked some Indians, killed Three (One of whom was  
a Chief) and purified them for some Diligence; but  
soon after he had the Mortification to learn that the  
Villains had butchered *Francis Campbell*, in the most  
shocking Manner: This Officer had been deceived ever  
since he went out to treat with them; and there can-  
not be a stronger Proof of the Ingratitude of this  
brutal Race than in this Instance; for while *Captn*  
*Campbell* commanded at the Detroit, he was remark-  
ably hospitable to the several Tribes of Indians who  
came to that Post; and made it his constant Study to  
benefit them. The other Officer who accompanied  
*Captn Campbell*, had the good Fortune to Escape.

The Measures now taking, will, I flatter ourselves,  
soon relieve the distressed Inhabitants on our back Set-  
tlements; for we are well assured that very formidable  
Reinforcements are on their Way to the upper Coun-  
try, which will be employed not only in securing the  
several Posts for the future, but in taking full Revenge  
for the Butcheries committed by the Barbarians as  
shall be a LASTING MONUMENT of the Wrath of  
INJURED BRITONS; and be sufficient to deter the  
BEASTS from ever attempting the like hereafter.

We hear great Part of the Soldiers whose Time of  
Service had expired, and who lately arrived at New-  
York from the Havana, have re-joined into the  
Regiments going up to chastise the savage Enemy.

### WILLIAMSBURG, July 15.

"An express arrived last night from *Winchester*,  
with a letter by his Honour the Governor, dated  
July 11th, giving an account that all the inhabitants  
of *Hamphire*, intimidated by some shocking parties  
of Indians, who have murdered several families  
thereabouts, had left their houses and plantations,  
and taken refuge in the different little forts on the  
South Branch of the country; and that many of the  
inhabitants of *Frederick* have followed their example,  
amounting in all to 648 Men, 538 women, and  
1191 children. His Honor, we hear, has sent up  
orders to the commanding Officer of the counties  
adjoining to draw out their militias; so that, it is  
hoped, they will be able to drive off those merciful  
Savages, and let the inhabitants return to their resi-  
dences, which otherwise must be inevitably dell oyed."

BY THE KING.  
A PROCLAMATION.  
GEORGE R.

WHEREAS A Definitive Treaty of Peace and Friendship, between His Most Christian King, and the King of Spain, to which the King of Portugal hath acceded, hath been concluded at Paris the 10th Day of February last, and the Ratifications thereof have been exchanged upon the 10th Day of this Instant Month: In Conformity thereto, we have thought fit hereby to command, that the same be published throughout all Our Dominions; And We do declare to all Our loving Subjects Our Will and Pleasure, that the said Treaty of Peace and Friendship be observed inviolably, as well by Sea as Land, and in all Places whatsoever; And to be kept and commanding all Our loving Subjects to take Notice thereof, and to conform themselves thereto accordingly.

Given at Our Court at St. James's, the 21st Day of March, One Thousand Seven Hundred and Sixty-three, in the Third Year of Our Reign.

GOD Save the KING.  
BOSTON August 15

ON Wednesday last, being the Day appointed for Proclaiming the Peace, at Noon his Excellency the Governor, escorted by the Life Guards, went to the Council Chamber, where he received the Compliments of the Lieutenant Governor, the Council, the Members of the House of Representatives, the Magistrates, Officers, and Gentlemen of the Town and Neighbourhood, upon the happy Conclusion of the Peace. At one o'clock, the Proclamation was read from the Balcony of the Town-House, which was received with great Acclamation, by a large Concourse of People assembled upon the Occasion; and, when upon a signal given, 21 Guns were fired from Castle William, and as many from the Battery of the Town. The Troop of Life-Guards, commanded by Brigadier General Royal; the Regiment of Militia, commanded by Col. Jackson, with its Train of Artillery; and the Company of Cadets, commanded by Colonel Jarvis, being drawn up before the Town-House, fired in Divisions, and in Volley.

After which the Governor, with the Lieutenant-Governor, Council, and the rest of the Company, escorted by the Company of Cadets, and preceded by the Officers of the Regiment, went to Faneuil-Hall, where an elegant Dinner, for upwards of 200 Persons, was provided: After Dinner the following Healths and Toasts were drank.

The King.—The Queen, Prince of Wales, and Royal Family.—His Majesty's Ministers of State.—The Duke of Bedford, and all other his Majesty's Ministers who assisted in concluding and concluding the glorious Peace.—Prosperity to the Province.—His Majesty's Forces by Sea and Land, and to the Memory of those who have died for their Country in the late War.—May the Peace be lasting.—May internal Peace prevail thro'out his Majesty's Dominions.—Prosperity to the British Empire in North-America, and may it be well Peopled to its utmost Bounds.

Upon drinking the King's Health, the Train of Artillery fired five Rounds from two Pieces of Cannon, which were placed before the Hall for that Purpose.

The whole was conducted with the greatest Order and Decency: In the Evening there were Bonfires at the usual Places, and Fireworks were played off from a Lighter moored in the Harbour at a small Distance from the Town.

Thursday last being appointed for a Day of Solemn Thanksgiving to Almighty GOD for the happy Conclusion of Peace, the same was religiously observed here.

Friday last being the Birth-Day of the PRINCE OF WALES, and the Anniversary of the Accession of the House of HANOVER, and also of the Surrender of the Havana, which was the immediate Means of bringing about the Peace; the Guns at the Castle, and those of the Batteries in this Town, &c. were discharged at Noon. And in the Evening His Excellency the Governor gave a Ball at Concert-Hall. There were present about 240 Gentlemen and Ladies; the Ball was opened by General Shirley and the Governor's Lady about 8 o'clock; the Country Dances began about nine, and about ten a Supper Room was opened, where was a very handsome Collation. The Ladies made a brilliant Appearance, and the Company expressed the highest Pleasure and Satisfaction on the occasion, and broke up about two in the Morning. The whole was conducted with the greatest Order, Elegance & Decorum.

We hear from Marblehead, that on Wednesday the 3d of this Instant, the House of the Rev. Mr. Barrow, was struck with Lightning: It came down the Side of the Chimney tearing from it the Shingles off the Roof, and ran into the lower Room, ripp'd up the Wainscoting near the Fire-place, where was a Scone Glass, and several brass Knobs, which very evidently diverted the Course of the Lightning; it proceeded to a Closet, and broke down China Ware therein, then went out of the House just tipping off the upper Part of the Cellar Door.—A Bowl which stood in the Clo-

set, had a Hole thro' it in the Digest of a Knitting Needle, occasion'd by the Lightning.—At the same Time a Cooper's Shop was struck in the same Town, the Chimney was beat in, &c. &c. the Roof: principally the Workmen just before went out of the Shop, whereby they escap'd being hurt.—The same Day a Horse was killed at Braintree.—Same Time a Barn was struck at Middleborough, the Lightning fell fire to the Hay which was extinguish'd with a Pail or two of Milk, by the People who discovered it; they made no Use of Water, tho' very near by hand, it being the Opinion of many in the County, that Water will not quench the Fire that is kindled by Lightning.—Whether this Opinion is just, would be of Service to the Publick to be inform'd.

A more melancholy Effect of the Lightning the same Day was at Reding Precinct: Mr. Joseph Frye of that Place, being in the Room with his Wife, who was standing near the Fire-Place, the Lightning came down the Chimney, which drove the Ashes in such a Manner that it fill'd the Room, Mr Frye with Difficulty got to the Hearth, and pulled his Wife out, but found that she, was instantly killed.

A few Days ago the House of the Rev. Mr. Weld of Attleborough, was struck with Lightning, the Fire, resembling a Large Ball, came down the Chimney into the lower Room, and made a considerable Explosion: There were a Number of Persons in several Parts of the House, a young Woman who was in the lower Room went up to see if any Damage had accrued, but found none, excepting a Quantity of Towse which lay spread on the upper Chamber Floor being in Blaze; the taking a Blanket thro' it over the Fire and extinguishing it, and thereby preserved the House from burning.

Extract of a Letter from Philadelphia, July 27.

I returned here last Night, being as far Well as Fort Loudoun with Col. Bouquet, who set out for Fort Pitt with his Command of not more than 450 Men of the 42d and 77th Regiments. He took under his Convoy, thirty six Waggon and near five hundred Pack Horses, loaded with Provisions and Stores; they went off with good Spirits, as two small Detachments sent forward had the good Fortune to escape the Enemy, and get into their Stations without being attacked (which I hope will be his good Fortune). Should he be beat, these Provinces would have Work enough on their Hands for two or three Years. There has been a great deal of Fire in the Papers but more than is strictly true - Shippenburgh and Carlisle is now become our Frontiers, none living at their Plantations but such as have their Houses stockaded. Upwards of 200 Women and Children are now living in Fort Loudoun, a Spot not more than 100 Feet square. I saw a Letter from Col. Stevens, late of the Virginia Regiment, to Col. John Armstrong, wherein he mentions that Great Bear and Jackson's River are depopulated, upwards of 300 Persons killed or taken Prisoners; that for one hundred Miles inbreadth, and 300 Miles in Length, not one Family is to be found on these Plantations; by which Means there is near 20,000 People left destitute of their Habitations. The 700 Men voted by the Assembly recruit but very slowly; the People that have Grain, are more intent on saving it than accepting the Bousy offered by the lowest Calculation made. there cannot be less than 400,000 Bushels of Wheat fall to the Ground, which cannot be saved.

Extract of a Letter from Providence, dated 20th July, 1763.

ON the 9th of April, John A—, the great Bully of this Colony, commenced an Adion of the Case against a Gentleman for publishing a Libel against him, in the Providence Gazette on the said 9th of April last, with an Intent to hurt his Character as an Attorney at Law; and laid his Damage at no less than £, 20000. The Case came on to be heard at our Inferior Court the 20th Inst last; one half the Jury were Men, belonging to the Town of Providence, and must be supposed to understand the true Value of his Character; and the whole Jury were Men of good Character and Capacity; having heard the Case, unanimously liged and returned their Verdict in the following Words, "We find for the Plaintiff, FIVE POUNDS Old Tenor, and Cost of " Court." Which Verdict was received and accepted by the Court: The Jury were out upon the Case but about one Hour, during which Time, as I have since learned, the only Dispute between them was, Whether John A—'s Character was worth Five Shillings, or Five Pounds, Old Tenor. I need not inform you that Five Pounds our Old Tenor is in Value but little more than Two Thirds of a Dollar. But little as the sum is, he did not venture to appeal from the Judgment, for Fear of his — coming to Light, and his recovering a less sum upon another Trial; so that now it is become a Matter of Record. The Value of his Character is fixed at Five Pounds, Rhode-Island Old Tenor, which in the Judgment of Men of Sense is reckoned to be Four Pounds Nineteen Shillings and Eleven Pence, more than the real Worth.

N. B. The Piece Published against Dr. Mayhew, can be proved to be in said John's own Hand Writing.

Yesterday his Grace the Duke of Bedford waited on his Majesty at St. James's, for the first Time since his Arrival from France, and was most graciously received.

The cargoes of the Fox and Godolphin East Indian, are rich with piece goods, with 1200,000 lb of Sappere, and about 1000000 pagudas worth of diamonds.

They write from Paris that the most Christian King has made her Grace the Duchess of Bedford a present of a Service of Sevres porcelain, valued at 17000 livres; (about 7500 sterl.)

A Gentleman just arrived from Dunkirk relates that there are daily employed in blowing up and destroying the fortifications of that place upwards of 2000 men; that, last Tuesday morning, which was the day he sailed from Dunkirk, the workmen had begun to blow up a fine bastion, which was 20 feet deep, and able to contain 2000000 of large shot.

It is said the Dutch are preparing a formidable Armament to protect their different Settlements in the East Indies.—Beware of their proceedings, Old England!

June 17. Yesterday 18 special Juries were sworn for at Westminster, by the defendants in the several professions, now carrying on by Mr. Wilkes, five by Mr. Sergeant Hewitt, five by Mr. Sergeant Davy, four by Mr. Sergeant Whitaker, and four by Mr. Sergeant Nares: sixteen of these cases are to be tried in the city of London, and two at Westminster, but what the issue is likely to be we must by no means presume to determine.

The Trial of John Wilks, Esq; that was expected to come on this day at the King's Bench, is said to be put off till Michaelmas Term.

The freedom of the Press, that is, of printing, writing, and speaking is not only the birthright of Englishmen, but 'tis of use to those in power, since it gives them notice of the cause of discontent, before they can be united into opposition; and will discover opposition before it becomes dissimulation.

Letters from Rome of the 21st ult. mention, that the College for the propagation of the gospel there, had received advice from China of a miraculous Conversion of 70000 souls to the Christian faith, with the Mandarin Touchin; and that the most reverend Peter Marie, of the order of St. Dominick, bishop of Macao, had lost his life by martyrdom.

MEXICO, August 8.

The last Accounts from Albany are, that Captain Dalgely, was met at Presque-Ile, by our Vessel that brought Letters from d'Etroit, and which was attacked by the River within six Miles of that Place, by a large Number of Indians, covered by a great Work, on a Pass that interrupts our Communication very much, and where the River is very narrow. This information, it is said, has determined Capt. Dalgely to enterch before he gets there with his Detachment, consisting of 300 Men, and wait the Return of the Vessel from Niagara, which is well armed, and play'd Haroc with the Indians in that Affair, in which he had five Men wounded.—By what the Indian Traders relate, it looks probable some of the Indian Nations are inclinable to make Peace, having delivered up their Prisoners gratis, and restored some of the Goods they had plundered from the Traders.

We have the Pleasure to inform the Public, That the Alarm upon the Mohawks River, (as mentioned in our last) has turned out not to be so bad as represented, altho' our Information at that Time came well authenticated.—It appears to have been occasioned by a couple of idle Fellows belonging to the Onondas, the Sachems of which Nation were much surprized when Sir William Johnson's Messengers arrived amongst them anxiously enquiring what Grounds there were for the Intelligence; And desired that Sir William might be acquainted, that the Reports were groundless; and according to their Promise to him in the last council, would from Time to Time acquaint him of every Thing that might tend to the Disturbance of our Settlements; requesting withal, that if we could meet with the Fellows that reported this Falshhood, to secure and punish them. This has greatly satisfied the People on the Frontiers, who have sent again in Peace; and the Detachments of the Militia that were ordered up in consequence thereof, are returned to their respective Homes.

Tuesday last the Wife of Mr. Samuel Choate, of Charlestown, was safely delivered of three Children at a Birth, viz. two Boys and a Girl, who are now well, and in good Health; as is also Mrs. Choate. They were all christened Yesterday by the Names Samuel, James, and Sufannah.

The Reports we had last Week of Major Rogers and a Party of 300 Men, being cut off by the Indians it is said, are not true, as the New York Papers mention that the 17th Regiment was got up to Niagara, with which Detachment went Major Rogers.

By a letter from Bermuda, dated the 10 of July, we learn that several Sloops belonging to that Island had extraordinary Success, in finding great Quantities of Goods at a French Wreck on the Cayals.

The Rhode Island Gentleman who sent APLIN's printed Account reflecting on a Minister and his Society in this Town, is desired to send for the Money that accompanied it, the Sum being as trifling as the Author's Character is esteemed at among his own Townsman, and therefore too small to purchase a Place in this Paper.
